SUMMARY

Full Stack Developer specializing in building scalable, AI-powered web applications using modern JavaScript and Python ecosystems. Experienced in developing production-level projects, integrating third-party APIs, and collaborating in Agile team environments with up to 11 developers. Completed intensive Full Stack Development and QA Engineering training with a proven ability to deliver functional applications under tight deadlines, including 24-hour hackathon builds. Actively seeking a Full Stack Developer Internship to contribute technical skills and grow in a professional engineering environment.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Bootstrap, Vite
- **Backend:** Node.js, Express.js, Python (Flask, Flask-CORS, Gunicorn), REST APIs
- **Databases:** PostgreSQL, MySQL, MongoDB (Atlas), Oracle SQL, Supabase, Firebase
- **Testing & QA:** Postman, K6, Cypress, Cucumber, Unit Testing, Jira
- **Programming Languages:** JavaScript, Python, PHP, Java, C++
- **AI & APIs:** Groq API, LLaMA Integration, M-Pesa, Firebase, Scikit-Learn, NumPy, NLP concepts
- **Tools & Deployment:** Git, GitHub, VS Code, Vercel, Render

EXPERIENCE

Full Stack Developer Trainee (Team-Based Projects) | 2024 – Present *Haramaya University / Freelance Collaboration | Ethiopia*

- Collaborated in Agile development teams of up to 11 developers using professional Git/GitHub workflows.
- Participated in hackathon-based development delivering a fully functional application within 24 hours.
- Integrated multiple third-party APIs including Stripe, M-Pesa, Groq AI, Firebase, and TMDb into web platforms.
- Engineered backend API development using Node.js and Python (Flask), frontend UI design, and cloud database integrations.
- Managed cloud application deployments seamlessly using Vercel and Render infrastructure.

EDUCATION & TRAINING

Bachelor of Science in Computer Science (CGPA: 3.4 / 4.0) | 2024 – Expected 2027 *Haramaya University | Ethiopia*

Full Stack Web & QA Engineering Training | *Evangadi Tech*

- Completed intensive training covering React, Node.js, PostgreSQL, software testing methodologies, and automation (Postman, Cypress, K6).

PROJECTS

1. TrustReview AI – Fake Review Detection System

- AI system using NLP and ML to detect fake reviews with real-time confidence scoring.
- *Tech:* React, Python, Flask, Flask-CORS, Gunicorn, Scikit-Learn, NumPy, Tailwind CSS.
- *Live:* <https://trust-review-ai.vercel.app/> | *GitHub:* <https://github.com/Naol724/TrustReview-AI>

2. DebugSense AI – Smart Error Explainer

- Full-stack tool analyzing programming errors to generate corrected code suggestions via LLaMA-3.3-70B.
- *Tech:* React, Node.js, Express, Groq API, Tailwind CSS.
- *Live:* <https://debugsenser-ai-3.onrender.com/> | *GitHub:* <https://github.com/Naol724/Debugsenser-ai>

3. Evangadi Forum – Q&A Platform

- Community Q&A platform featuring secure JWT authentication, question posting, and user interaction loops.
- *Tech:* React, Node.js, Express, PostgreSQL, JWT.
- *Live:* <https://evangadi-forum-hazel.vercel.app/> | *GitHub:* <https://github.com/Naol724/evangadi-forum>

4. Amazon Clone – E-Commerce Platform

- Full-stack e-commerce store with user accounts, shopping carts, and Stripe payment gateway integration.
- *Tech:* React, Node.js, Express, MongoDB Atlas, Stripe.
- *Live:* <https://react-ecommerce-app-24et.onrender.com/> | *GitHub:* <https://github.com/Naol724/React-Amazon-clone>

ACHIEVEMENTS & KEY HIGHLIGHTS

- **Hackathon Performance:** Earned certificates from Evangadi Tech & Cursor Community Hackathons for 24-hour rapid prototyping.
- **Open Source Contribution:** Maintained 40+ GitHub repositories and successfully built and deployed 15+ real-world web applications.
- **Core Strengths:** Full-stack architecture, Agile team collaboration, AI application integration, cloud hosting (Vercel, Render), and database management (MongoDB Atlas, Supabase, Firebase).

LANGUAGES & AVAILABILITY

- **Languages:** English (Professional Working Proficiency), Afaan Oromo (Native), Amharic (Fluent)
- **Availability:** Available immediately for Full Stack Developer Internship or Remote Junior Developer Roles.
